

**I
AM WITH
YOU!**

No matter where you are, I am always by your side—because I love you. It makes Me very happy to be with you, and it would make Me sad if I couldn't be close to you.

I am with you:

when you are at home,

when you are out witnessing,

when you are at the park,

when you are in a car, on a bus, or flying in a jet plane.

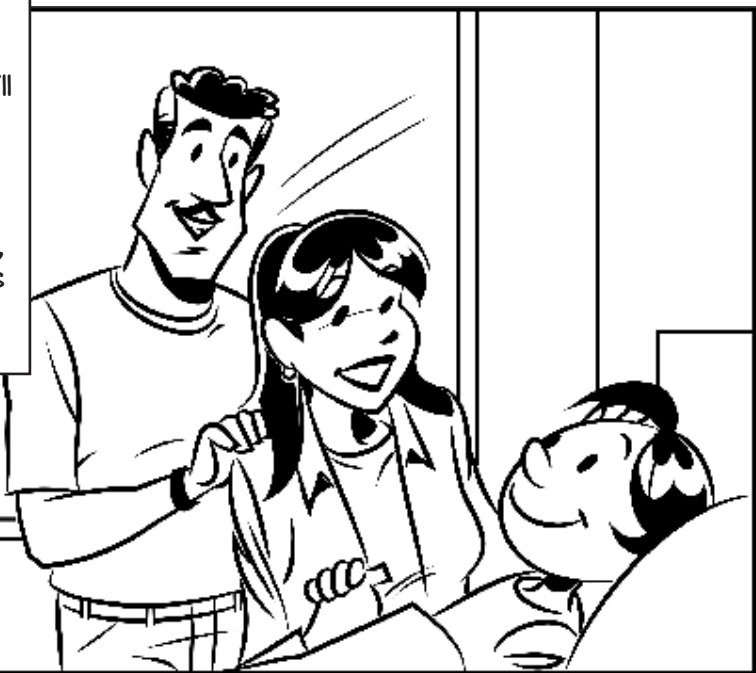

And now, while you are in the hospital, I am with you too!

I'm here to comfort you, to take care of you, and to cheer you up.

While you are in the hospital, your mommy or daddy will often be with you. But even if one of them can't be with you all the time, you can feel secure, because I am always with you. I will take care of you.

Close your eyes, and think about Me sitting in a chair right beside your bed, because I am!

And if you wish there was someone to hug you, think about Me hugging you, because that's exactly what I will be doing.

I have sent Watcher and Haven to be with you while you are in the hospital.

Watcher will make sure that you are safe during your stay at the hospital. Remember to thank him for doing that.

And you can ask Haven to help you experience extra doses of My love to lift your spirit. She likes to give ideas that will make you happy.

Read "Watcher and Haven,"
MLK #247.

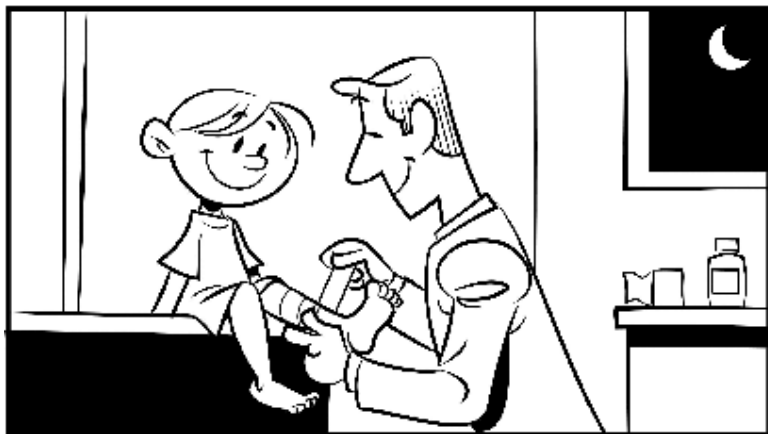

Read "Prayer Angels,"
MLK #138.

Your personal guardian angel is also with you, as well as your prayer angel who prays for you.

And if you want another special angel or spirit helper to be with you in the hospital, you can ask Me for one, and I'll send an extra helper especially for you.

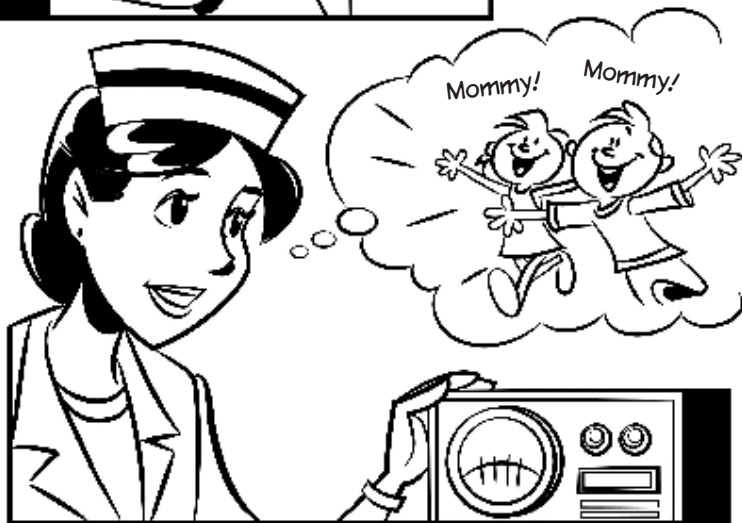

Maybe you would like a spirit helper to entertain you in your dreams while you are sleeping. I would love to send you one, if you'll ask Me.

The doctors and nurses who take care of you are trying to make you better. You can show them that you appreciate them by thanking them for their care when you see them. Your beautiful smile is another way of saying you're thankful for their care.

Doctors and nurses work very hard and for long hours. Sometimes they don't get much sleep because they are so busy taking care of sick or injured people.

Many of the doctors and nurses have children at home whom they can't be with while they are taking care of people in the hospital. They often miss their children, just like you miss your friends and brothers and sisters back at home.

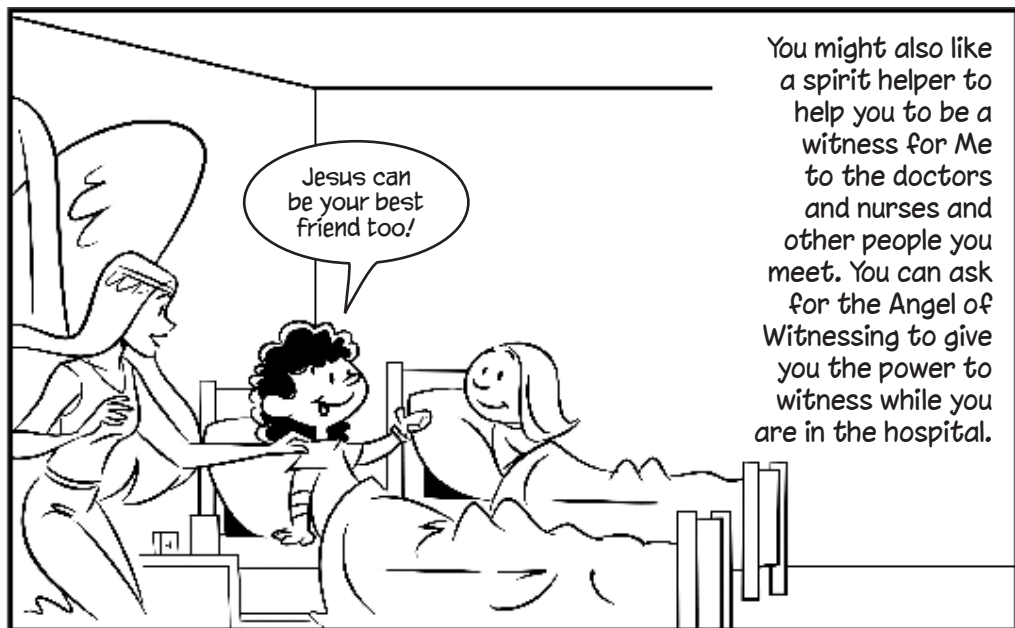

So please thank them for the work they are doing to help you get better, and give them a smile. This is a very important thing to do, as it will help make them happy.

I know sometimes you feel sick and you don't always feel like saying thank you, or even smiling. If that happens, the doctors and nurses will understand if you don't feel like talking. But if you claim the keys of love, I can help you to smile even when you're tired, and that will make them glad.

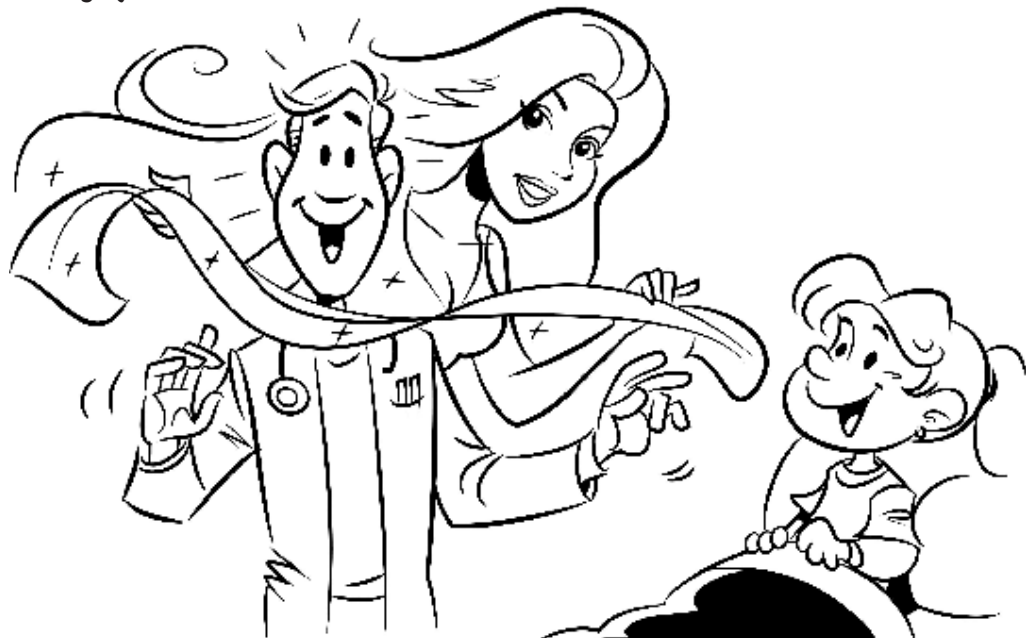

Read "The Smiling Girl," MLK #250.

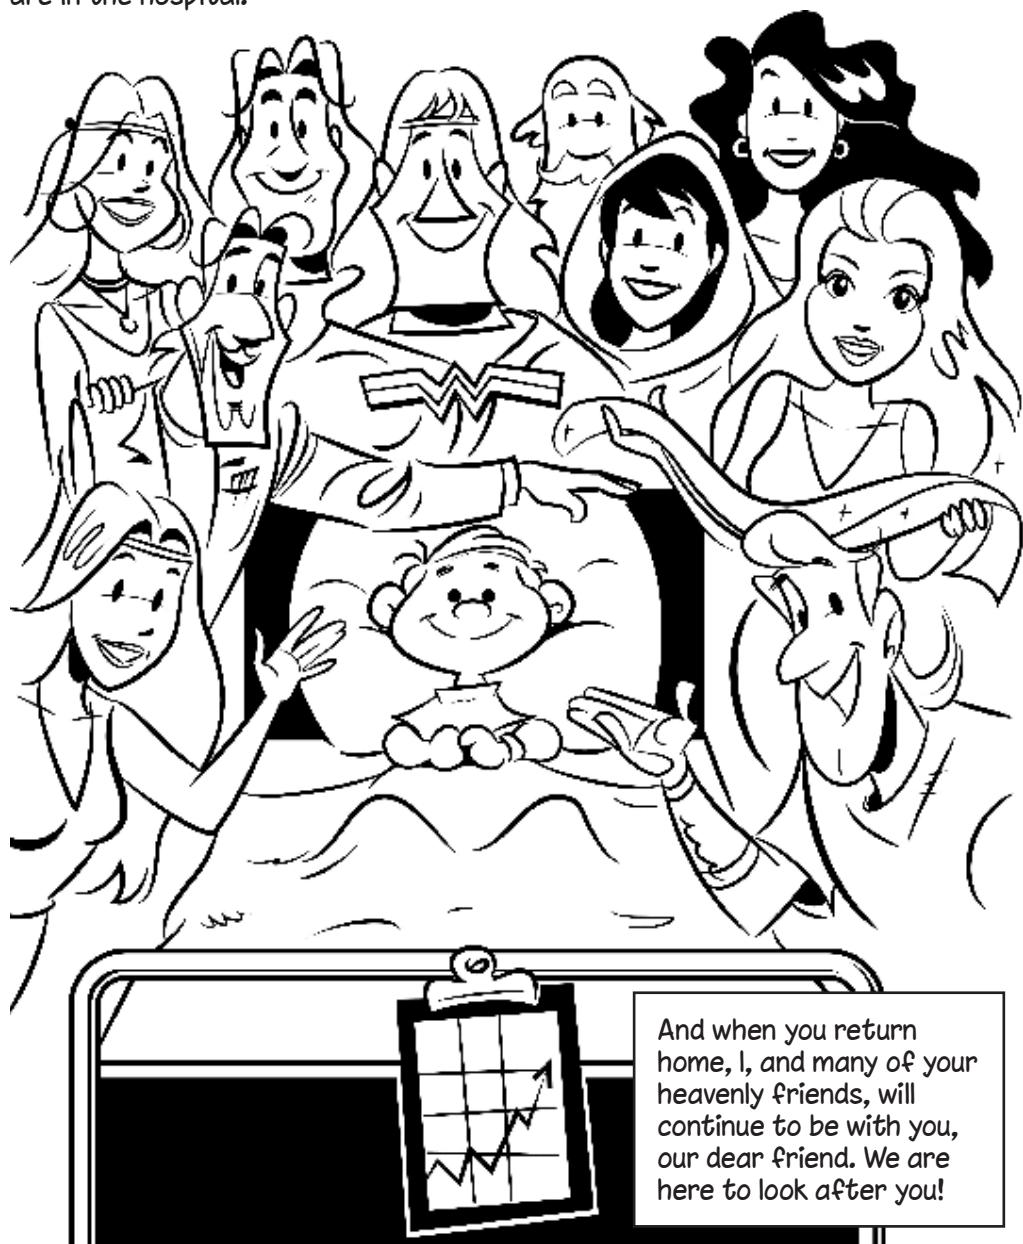

You might also like a spirit helper to help you to be a witness for Me to the doctors and nurses and other people you meet. You can ask for the Angel of Witnessing to give you the power to witness while you are in the hospital.

If you see another patient, or even a doctor or nurse, who needs more of My love, you can ask for Aphrodite to bring a scarf of love to put around them through your kind words and smiles.

Read "Aphrodite—And the Scarf of Heavenly Love," *MLK* #191; "The Activation Angels," *MLK* #217, pages 6-7; and "Power for Christmas Witnessing," *MLK* #240.

You have Me, Jesus, and many friends from Heaven who love you very much and are close to you. We want to make sure you feel a large amount of love while you are in the hospital.

And when you return home, I, and many of your heavenly friends, will continue to be with you, our dear friend. We are here to look after you!

I know what it's like to be a child and to not feel well. I experienced that when I was on Earth. You can read about that in "Jesus Got Sick Too!" (MLK #183).
